

Subject: NTISSC Steering Committee Meeting, 7 November 1985

We have not yet received a formal agenda for this meeting.

We are informed that Mr. McFarlane will open the meeting and state what is expected of the Steering Group.

Then Mr. Latham will deliver the NTISSC First Annual Report. This is supposed to be the centerpiece for the meeting. There are a series of recommendations on pages 4-6 of the report which may be highlighted; however, Mr. Latham has stated that he will focus on the points mentioned in his cover letter to the report.

The NTISSC Report is supposed to stimulate various agencies and departments to include in their budgets more funds for communications and computer security. The focus is on non-intelligence organizations.

It is expected that NSA will make a presentation on the FY-87 consolidated budget for communications and computer security
